DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with **Ryan P. McCarthy** on 28 March 2006. The application has been amended as follows:

In the claims: Amend claim 1 as per mark-up below and delete claim 8 and 9.

Claim 1 (Currently Amended) A power supply that generates alternating current (AC) and direct current (DC) from a DC voltage source, comprising:

an inverter that supplies a first phase current and a second phase current to a traction motor, wherein said inverter comprises:

a first phase half bridge connected across said DC voltage source to provide said first phase current;

a second phase half bridge connected across said DC voltage source to provide said first phase current;

a third phase half bridge connected across said DC voltage source to provide a third phase current to said traction motor;

a first auxiliary half bridge connected across said DC voltage source to provide a first auxiliary current; and

a second auxiliary half bridge connected across said DC voltage source to provide a second auxiliary current; and

a controller that determines a first adjusted phase current based on said first phase current, determines a second adjusted phase current based on said second phase current, calculates an available current based on said first and second adjusted phase currents and generates a voltage control signal based on said available current, wherein said controller controls said inverter based on said voltage control signal.

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rajnikant B. Patel whose telephone number is 571-272-2082. The examiner can normally be reached on 6.30-5.00; m-f.
